

THE COMPASS

Help for Today ♥ Hope for Tomorrow

A letter to our clients,

We would like to take this opportunity to thank you for being part of The Compass community. We feel honored and privileged to serve you, hear your stories, connect you with others and have your trust. We want you to know that we are committed to you and your families and will do our best to deliver exceptional service.

However, due to the increasing cost of food and our growing number of clients, you will start seeing some adjustments being made to the quantities of some items you receive. We are trying really hard not to impact you as much as possible.

With Christmas fast approaching we felt that you should know that while we will be distributing Gift Cards, the amount you will receive will be less this year; and while we will have turkeys to distribute there will be fewer than in years before.

The decision to make these adjustments was very difficult but necessary so that we may continue to serve our ever growing community.

We wish you peace & love as we enter this Holiday Season.
